ABOUT ME

I have been living and working in Indonesia and Greece for the last 5 years as a Divemaster and Instructor and currently seeking for a full time or freelance position.

In addition, I am punctual, hard worker, a good team player and very motivated. Funny and always ready to give the best diving experiences to customers. I have team management and shop skills and willing to get equipment maintenance & repair experience in the future.

I consider myself an easy-going person and someone that likes to make other's work easy. Also, I can work under pressure as I worked for a diamond rated diving resort with a large volume of costumers.

To conclude, I have a very strong feeling for the environment and help marine conservation programs as much as I can, such as turtle care & release, reef checks, Biorock, U/W & Land clean-ups.

Thanks for your time and consideration,

Best Regards,

Aurelien Masse
